

Sponsorship Opportunities

Environmental professionals, educators and organisations are encouraged to get involved with this unique event to help educate our youth about the importance of water.

Invitation to Participate

Whiteman Park is delighted to be able to invite you to support the **2022 Children's Gngangara Groundwater Festival** through cash sponsorship or in-kind donations of presenter time or resources.

This is a great opportunity to help educate children who are old enough to be able to understand groundwater and environmental concepts, whilst still young enough to form their own value systems – and hence learn to protect our most precious resource.

The 2022 event will be held on Wednesday 2 November.

Steve Lowe

Manager, Whiteman Park

2 November
2022

Welcome to the Groundwater Festival

Now in its twentieth year, the Children's Groundwater Festival educates our middle and upper primary school students about the importance of water and related environmental topics.

It provides the opportunity for Western Australian middle and upper primary school students and their teachers to come together on a designated day with a specific focus to learn more about water, groundwater, sustainability and other related environmental topics.

Programming of the Festival sees each class scheduled into over four hours of dynamic, 'hands on' and interactive activities led by environmental professionals representing government agencies, environmental organisations, higher education and private business. Classes participate in an introductory 'Mega Water' session, three groundwater-related learning activities and a period in the free time area.

The Mega Water Session introduces and improves the concept of groundwater with students, ensuring that all the kids attending have the same base understanding of the key topics.

A fun, 'festival' style ambience is created in the free time area, where students are able to view information displays, interact with 'watery' performers and explore a number of fun, open ended, festival style activities such as the Hard Water Café, calico craft, face painting and more.

The Festival is open to all Year 4 to 6 classes in Western Australia. To create a COVIDSafe event, capacity will again be capped at 28 classes for 2022, meaning up to 840 students have the opportunity to participate in this full day learning experience.

The **2022 Children's Gnambarra Groundwater Festival** will take place on Wednesday 2 November in the Village at Whiteman Park.

63% of presenters rated their festival experience as 'excellent'.

(It's ok, the rest rated it as 'good')

A bit about the Festival

Festival objectives

The aim of the Festival is to inspire students to learn more about conserving water and the environment that surrounds them. Children who attend the Festival will be educated about water and how it is stored within natural systems, as groundwater or as surface water, and instructed on the important role water plays within natural and man-made ecosystems. The concept of sustainability and how sustainability relates to water use and water conservation will also be conveyed.

Students will develop a greater knowledge and understanding of:

- what groundwater is and how it differs from surface water
- the water cycle
- the interdependence of plants, trees, wildlife, soil and water
- the effect that human action has on the environment and the need for responsible action
- the value of water in our day-to-day living
- sustainability in relation to water supply, use and conservation.

Background

The Children's Groundwater Festival began in Nebraska, USA in 1989 as an extension of the mission of The Groundwater Foundation (USA), which is to create a factually informed and motivated citizenry caring about and for its groundwater.

The Festival has since become an international model with the concept being adapted and replicated throughout the world. Festivals have been held in nearly 40 US states, Mexico, Canada and India.

It is our own unique adaptation of this festival that we bring to Western Australian students, with 2022 marking the 20th year of the Children's Groundwater Festival at Whiteman Park.

Since 2002, nearly 20,000 students from 110 schools have been inspired to care, conserve and protect the water that nourishes them by attending our Festival. The feedback received from teachers, students and Festival stakeholders has always been overwhelmingly positive.

Venue

Whiteman Park is a unique recreation and conservation reserve that covers nearly 3,700 hectares of natural bushland and leisure facilities in Perth's northern suburbs.

Situated just 18 km from the Perth CBD, alongside the tourist precinct of the Swan Valley, the Park is owned by the Western Australian Planning Commission and managed by the Department of Planning, Lands and Heritage.

Whiteman Park offers a distinctive venue for the Festival because it relies 100% on groundwater for its own water supplies. In addition, one of the principle reasons for the establishment of the Park was to protect the southern edge of the Gnangara Mound, the largest groundwater source in WA, above which Whiteman Park sits. The protection and conservation of groundwater and surface water quality is achieved through careful management practices within the Park.

The Festival is also supported by a strong education portfolio, as Whiteman Park offers a range of transport heritage and environmental education programs that attracts thousands of students to the Park annually.

Sponsorship Opportunities

There are a range of sponsorship opportunities which will enable your organisation to make a significant contribution towards the overall success of the Festival, while enjoying strong brand exposure and communication channels to a large number of primary students, teachers and parents.

Whiteman Park welcomes interested organisations to become involved and support the Festival through either cash or in-kind sponsorship arrangements, subject to the *Sponsorship in Government Guidelines*. All monetary sponsorship must be paid in full by 30 September, 2022.

In-kind sponsorship in the form of the provision of presenters, resources and consumables is also welcomed for this event.

Contact the Business and Marketing Team Leader to discuss a sponsorship package suitable to your specific requirements on **+61 (08) 9209 6000**.

Presenter Incentives

Whiteman Park is searching for at least 22 enthusiastic environmental professionals to volunteer their time to present workshop activities at the 2022 Festival.

Presenters will each receive their own Festival t-shirt to wear on the day and then keep; this year's t-shirt is white. Whiteman Park will also provide all catering for the day, including a delicious lunch, all-day snacks and hot and cold drinks.

Presenters will need to be available and able to commit to presenting their nominated workshop on either Wednesday 2 November or the contingency date (in case of inclement weather) of Thursday 3 November*.

**Please note you can nominate to be available on only one of these days, noting that Thursday is as a backup only.*

A certificate of appreciation can be provided for those who request one.

More questions?

I can only commit to one day, should I still register?

Yes! Should we need to move to the contingency date, there will always be presenters who can't make it, so knowing what day you CAN do, we can plan accordingly. (And we're very appreciative of that commitment!)

What activity should I present?

A number of activities that have proved to be winners at previous Groundwater Festivals will be included at this year's event, along with 1-2 new workshop activities.

If you have a specific interest or knowledge on certain topics, or would like to request to present a specific workshop, please let us know so we can allocate you to the best possible activity!

How many sessions will I have to present on the day?

Workshops are presented a maximum of four times on the day. In Free Time, the session runs for 3.5 hours (you will get a lunch break of course!).

How long will I be required on the day?

Each session runs for 30 minutes, with the whole day running from 9.30am to 2.30pm. Depending on your workshop itinerary, you will be required to be at the Park for up to five hours.

Where will my presentation take place?

Almost all sessions are conducted outdoors in the shaded picnic grounds of Whiteman Park.

What do I need to provide?

Whiteman Park will provide all the resources needed for the activities although any assistance your organisation may be able to give with provision of materials or giveaway prizes would be greatly appreciated.

You will also need to show your Working with Children Check card or sign a declaration form to participate.

What age group and class sizes are we presenting to?

Students are aged between 9 and 12 years old (Years 4 to 6) and you can expect up to 30 students per session (i.e. usual class size).

What other information do I need?

Lesson plans and timetables will be distributed by mid-October.

Presenters will also be asked to attend one of our 1.5hr Festival Training and Familiarisation sessions at Whiteman Park, which are scheduled for Thursday 13 October, 2022 at 9.00am and 3.30pm.

I'm attending in my own right. Does your insurance cover me?

Most of our presenters are released by their employers to attend the Festival. If however, you are volunteering as an individual, then Whiteman Park will sign you up as a one-day volunteer to cover you under our insurance.

Additional commitments

Our organisation commits to provide _____ (insert number) of presenters or volunteers to assist at the 2022 Festival.

A Presenter Registration Form will be completed for each person we make available to assist.

In addition, we will:

- provide information for inclusion in the Teacher Packs by 18 October, 2022. We understand that we need to provide 30 copies of each item to be included.
- provide a small quantity of prizes (5 – 40 items) for giveaway to students at the Festival.
- send a high resolution electronic version of our logo to **cgf@whitemanpark.com.au** in EPS, TIF and/or JPG file formats, with this form.

Signed _____ Date _____

Terms and conditions

To guarantee inclusion in all of the sponsorship benefits please submit sponsorship commitment forms by 30 June, 2022.

The deadline for all monetary sponsorship is 31 August, 2022.

Invoices must be paid by 30 September, 2022.

Complete this form and email to **cgf@whitemanpark.com.au**

Presenter Registration Form

Thank you for your interest in volunteering to present a workshop at the 2022 Children's Gngalara Groundwater Festival.

Please fill out the form below for EACH presenter who will be representing your organisation and return to us by Wednesday 31 August, 2022. Return forms to: cgf@whitemanpark.com.au

We look forward to hearing from you soon and hope that together we can make the 2022 *Children's Gngangara Groundwater Festival* an exciting and educational experience for the students of Western Australia.

"In approximately 40 years of teaching, I think this is the most enjoyable and informative excursion the children have ever participated in. They learn heaps and talk about it for years later!"

– Judith McCormack
