<b>GENERAL PRECAUTIONS</b>	nil	Fire crews may be placed on standby		<b>Fire Appliances &amp; Crews ON STANDBY</b>		TFB notification email and signage	HVMB notification email and signage

KEY	
✓	Operation permitted
✗	Operation not permitted
(✓)	Operation only permitted if no TFB and/or HVMB in place
✓ with precautions	Operators must have suitable firefighting capacity consistent with the works being undertaken and/or in accordance with conditions prescribed in the Bush Fires Regulations 1954. Spark-causing activities are not permitted.
*	Works may be undertaken for urgent animal welfare/ emergencies only and if accompanied by adequate fire appliance/s.
FDR	The Australian <b>Fire Danger Rating</b> System (AFDRS) has four levels of action-oriented messages to encourage people to take action to protect themselves and others in the face of bushfire risks.
FBI	The <b>Fire Behaviour Index</b> is expressed in whole numbers from 0 to 100+. As the FBI rises, the more dangerous a fire that starts will become.

## REMEMBER

**The highest level of restriction on any given day applies for each operation.** Total Fire Bans (TFB) and Harvest Vehicle Movement Bans (HVMB) are governed by law. Whiteman Park management, DFES and local shires reserve the right to impose additional operational restrictions at any time.
